LotGuard Surveillance units transform parking lot safety. but there are many steps to better safety.

Below we have compiled the top 10 tips to keep employee parking lots safe

Well-Lit Environment

Adequate lighting is essential. Ensure that your parking lot is well-lit during all hours of operation, including evenings and nights.

Remote Monitoring & Surveillance

Install LotGuard cameras strategically to monitor all areas of the parking lot. This deters potential criminals and provides evidence in case of incidents.

Regular Maintenance

Keep the parking lot well-maintained. Fix potholes, cracks, and any other hazards promptly to prevent accidents and injury.

Visible Signage

Clearly mark pedestrian crossings, speed limits, and stop signs to enhance safety and awareness.

Access Control

Implement access control measures such as key cards or security personnel to limit unauthorized entry and ensure only employees use the lot.

Security Patrols

Regular security patrols in the parking area can deter criminal activity and provide a sense of security to employees.

Escort Services

Offer employees the option of a security escort to and from their vehicles, especially during late or dark hours.

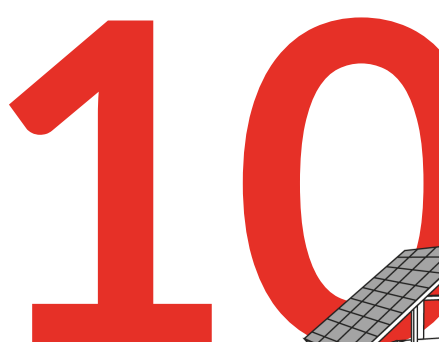

Employee Awareness

Educate employees about parking lot safety. Encourage them to report any suspicious activity and remind them to lock their vehicles.

Plan For The Unexpected

Have a well-communicated emergency plan in place. Ensure employees know what to do in case of accidents, natural disasters, or security incidents.
